

# Have you ever thought about fostering a dog?

## What is fostering?

Our valuable foster carers temporarily look after a greyhound until we can find a loving forever home. You provide love, routine and a warm bed. We provide food, vet care and continuous support.

## What is the process?

Have a chat with us or complete an EOI form online. We'll arrange a property check to ensure your home is suitable for a greyhound, eg your fences are secure. Then we'll pair you up with a hound and arrange for them to be transported to you.

## Why greyhounds?

Greyhounds are generally gentle, calm and lazy. They can make wonderful, loving, low-maintenance pets. Despite their size and speed, most greyhounds are happy with one or two short walks per day.

## Who are we?

Greyhound Adoptions WA is a 100% volunteer-run not-for-profit. We rehome ex-racing greyhounds into loving homes.

**Contact us today!**
